

HAMMOND

Award winner

*Musikmesse International Press Award (MIPA) and
PPVMEDIEN Readers' Awards for the Hammond SK Stage Keyboards*

HAMMOND receives Musikmesse International Press Award (MIPA) and PPVMEDIEN Readers' Awards for the Hammond SK Stage Keyboards

During the recent occasion of the Musikmesse and Prolight + Sound 2012, journalists from over 100 trade magazines from all around the world choose the Hammond SK series as the best product in the category Stage Organs.

The award was presented to Hammond for outstanding products during a grand evening event with over 300 representatives of International manufacturers and distributors. The large number of international guests underscores the significance of the MIPA.

Over the years, the Musikmesse International Press Award has developed into the "Grammy" of the musical instrument and professional audio sectors.

The prize was given to Hammond Suzuki Europe on Thursday, March 23.

HAMMOND receives PPVMEDIEN Readers' Award for Hammond SK1 Stage Keyboard

The destination of the annual PPVMEDIEN Readers' Awards is determined by the votes of readers of the magazines KEYS, Guitar, Soundcheck, Drumheads!! and Tastenwelt. Also this year the international Musikmesse/Prolight + Sound in Frankfurt am Main provided the setting for the presentation of the awards. The presentation of the awards was a great success. The representatives of Hammond (Siemen Lassche and Yu Beniya) whose product had been recognized in this way by the readers - who voted once again in their thousands - were on hand to collect the award which was presented this year as in previous years by Mr. Karl Stechl, the editor of the magazine Tastenwelt.

*With Hammond SK-series
you have a double winner!*
